# ARclad® 8726-78

# Muntin Mounting Tape

### PRODUCT DESCRIPTION

ARclad<sup>®</sup> 8726-78 is the next generation of high performance muntin mounting tapes from Adhesives Research. ARclad<sup>®</sup> 8726-78 has been specifically developed for the rigorous demands of the muntin mounting application. This new tape combines advancements in adhesive technology with years of industry knowledge to provide window manufacturers with exceptional performance that meets or exceeds industry standards.

### **FEATURES**

- High performance acrylic adhesive system
- 1/32" closed cell polyethylene foam construction
- 3 mil blue poly liner

## BENEFITS - The ARclad® Advantage

When applied in accordance with ARclad® application guidelines:

- Exceptional adhesion to the broad range of substrates commonly used across the industry without the need for abrasion or other surface treatments
- Optimum balance of performance properties which resist the forces that work to pull the grille away from the sash:
  - Variances in expansion and contraction rates of the grille substrates vs. the glass
  - Use of the grille to raise and lower the window
- Co-extruded smooth coat foam allows superior wet-out of the tape to the glass surface, ensuring a watertight bond
- Custom-developed adhesive polymer which resists
  - Temperature extremes
  - High humidity
  - UV degradation
  - Cleaning solutions\*
- Silane coupling agent is not required eliminating the cost, risk, resources and time associated with silane use
- 10-year limited warranty

### **PRODUCT APPLICATIONS**

Simulated Divided Light (SDL) grilles. Users should assure the product meets the specific needs of their application(s). Adhesives Research can tailor the product to meet the needs of specific applications as requested by customers.

# PRODUCT PROFILE AND DIAGRAM

3 mil D/F Siliconized Polypropylene Liner High Performance Acrylic Adhesive Smooth Coat 1/32" Black PE Foam High Performance Acrylic Adhesive

### STORAGE AND SHELF LIFE

One (1) year from date of manufacturing when stored at 70°F, 50% R.H.

<sup>\*</sup>Ammonia or alcohol-based cleaners are recommended. Citrus oil cleaners and muriatic acid brick treatment should be avoided with ARclad® 8726-78 and any other adhesive product.

## **PHYSICAL PROPERTIES** \*

| Test Performed                    | Dwell Time | Condition / Rate | Typical Value            | Test Methods                    |
|-----------------------------------|------------|------------------|--------------------------|---------------------------------|
| 180º Peel Adhesion**              | 72 hours   | 12 ipm           | >100 oz./in              | PSTC-101, ASTM D-3330, ART 1005 |
| 500g Static Shear, 1/2" x 1/2"*** | 72 hours   | 150ºF            | >24 hours                | PSTC-107, ASTM D-3654, ART 1011 |
| 500g Static Shear, 1/2" x 1/2"*** | 72 hours   | 100ºF / 95% RH   | >24 hours                | PSTC-107, ASTM D-3654, ART 1011 |
| Dynamic Shear***                  | 72 hours   | 0.1 ipm          | >60 lbs./in <sup>2</sup> | ASTM D-1002, DART 3027          |
| Dynamic Z-Tensile***              | 72 hours   | 0.1 ipm          | >60 lbs./in <sup>2</sup> | ASTM D-897, DART 3020           |

<sup>\*</sup>Typical Properties, The data provided in this Product Information sheet are typical and should not be used for specification purposes.

### **ROLL SIZE AVAILABILITY**

Coated material yields 54" width. Material can be slit to order. Standard widths from 0.5" to 54.0". Standard slitting tolerance: +/- 1/32". Tighter slitting tolerance may be available on request.

Standard roll length 216 ft. to 500 ft.

Note: The information contained on this data sheet is based upon test results of limited quantities of this material and may be modified by Adhesives Research following additional production experience and evaluation. This data should not be used in preparing specifications. Products identified as developmental may be subject to modification by Adhesives Research, Inc.

(Revised 30 April 2014)

### APPLICATION AND STORAGE OF PRESSURE-SENSITIVE ADHESIVE TAPES

Pressure-sensitive adhesive tapes function as a mechanical product; however, the adhesive itself is a chemical composition that can be sensitive to environmental conditions. A purchaser of pressure-sensitive adhesive products should be aware of the shelf life of each product and not purchase more than it can use before the expiration date. Shipping and storage conditions affect shelf life. The optimum storage temperature is 70 °F (21 °C). Cool, dry storage is recommended.

### For best results...

- 1) The surfaces you wish to bond should be clean and free of oil, moisture and dust. If the surface temperature is below 40°F, it may be difficult to achieve a proper bond.
- Do not use a pressure-sensitive adhesive product where it will be exposed to temperatures lower or higher than those designated for each product. Heat can destroy the effectiveness of the bond and extreme cold can cause the adhesive to harden and not adhere properly.
- When the tape is applied, use firm hand or lamination pressure to achieve contact between the adhesive and the surface to which it is applied. Hand rollers or nip rollers may be needed for certain products or applications. Consult your AR sales representative if you need additional information.

### THIS IS NOT AN OFFER

This Product Information sheet ("PI Sheet") is not an offer to sell by Adhesives Research ("AR") and does not contain any binding warranties or terms of sale. While this PI Sheet does contain technical information and general warranty information, this PI Sheet is non-binding and is for information purposes only. If you wish to purchase the product set forth on this PI Sheet ("Product"), or have any questions regarding the warranty or other terms related to this Product, contact AR customer service or a sales representative and they will provide you with AR's terms of sale for the Product in the form of a Sales Order Acknowledgment. AR shall not be bound by any terms or information set forth in this PI Sheet.

### DISCLAIMER OF WARRANTIES

©2012 Adhesives Research, Inc. Printed in USA

AR's warranty on product is limited to the warranty set forth in the Sales Order Acknowledgment. NOTHING SET FORTH IN THIS PRODUCT INFORMATION SHEET SHALL CONSTITUTE A WARRANTY OF ANY KIND AND EXCEPT AS SET FORTH IN THE SALES ORDER ACKNOWLEDGMENT. UNLESS OTHERWISE STATED IN A SALES ORDER ACKNOWLEDGMENT, AR EXPRESSLY DISCLAIMS ALL WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. No provisions, statements, diagrams, drawings or pictures contained in any product literature, price list, catalogue, purchase order, product data sheet, order acknowledgment, invoice, delivery ticket, or any other communication by AR, including information on AR's website or statements made by AR's employees or agents, constitute express warranties. Results of tests and recommendations included in communications of AR do not constitute express warranties. MANY FACTORS MAY AFFECT THE USE AND PERFORMANCE OF AN AR PRODUCT IN A PARTICULAR APPLICATION, INCLUDING, AMONG OTHERS, THE PRODUCT SELECTED FOR USE, THE CONDITIONS IN WHICH THE PRODUCT IS USED, THE TIME AND ENVIRONMENTAL CONDITIONS IN WHICH THE PRODUCT EXPECTED TO PERFORM, THE MATERIALS TO BE USED WITH THE PRODUCT, THE SURFACE PREPARATION OF THOSE MATERIALS, AND THE APPLICATION METHOD FOR THE PRODUCT; THEREFORE, PURCHASER ACCEPTS RESPONSIBILITY FOR DETERMINING WHETHER AR'S PRODUCT IS FIT FOR A PARTICULAR PURPOSE AND SUITABLE FOR PURCHASER'S METHOD OF APPLICATION. AR retains the right to modify or change its products if in AR's judgment it is advisable.

AR limits the purchaser's remedies in the event of a breach of any warranty. The purchaser's exclusive remedy and AR's obligations for a breach of any warranty shall be as set forth in the Sales Order Acknowledgment.
